

Ever dream of flying a plane or wonder what real pilots see and do?

Do you want to pursue a career in aviation or the military?

The private pilot course at Howell High School can get you off the ground. Open to juniors and seniors, this free course puts you on the path to fulfilling the classroom training and real-world experience needed to become a private pilot.

What will this course do?

It will give you the chance few people have... to see your world from the sky.

This free, high school course is supported by local businesses and volunteers who share their aviation experience, knowledge and passion by educating and mentoring students.

SEE YOUR WORLD FROM THE SKY

Get ready for a great ride

Just like any other pilot-in-training, you complete ground school hours, and you learn from a certified high school teacher, who has earned both his pilot license and the Federal Aircraft Administration (FAA) Ground Instructor Rating.

In addition to classroom instruction, guest speakers and field trips will introduce you to the world of aviation.

This course gives you the chance to:

- Meet with expert aviators, as well as pilots who are local, and some who are nationally known
- Learn about the interesting lives of commercial pilots and air traffic controllers
- Climb aboard an airplane and learn about aircraft controls and maintenance
- Take a flight lesson with a certified flight instructor
- Log time on Crosswinds' aviation flight simulator
- Go on off-site field trips

And a whole lot more!

There's more than just flying

Being a pilot is just one career path in aviation, but the goal of this course is to help you decide which area of aviation interests you the most.

It's a great launch pad to:

Aerospace engineering
Working as a commercial pilot
Pursuing a career in aircraft maintenance
A career as an air traffic controller
Working in ground operations

Your Flight Plan: From Student to Licensed Pilot

Follow this checklist to enroll in the Private Pilot Flight Course at Howell High School.

Only juniors and seniors are eligible.

☐ Apply for the course

Contact your counselor at Howell High School
517.540.8300.

☐ Take your introductory flight

Introductory flights will be given by volunteers of EAA Chapter 384's Young Eagle's Program. For more information on the EAA Young Eagles program, Experimental Aircraft Association, or the Brighton Sportplane Association contact: www.eaa384.org
www.eaa.org • www.youngeagles.com

☐ Get Hands on Experience

This course is about investigating the practical applications of math and physics used in learning to fly. It provides you with hands-on experiences. You will team up with classmates to learn how to pilot and navigate a flight course; then you'll fly that same trip on Crosswinds' aviation flight simulator.

☐ Scholarships

If you are set on a career as a pilot or in the field of aviation, you can apply for a variety of scholarships for additional flight training, college tuitions, along with special activities and camps.

In addition to earning high school credit, you will:

- Learn what it takes to become a private pilot, and be ready for the next step in becoming one.
- Get a behind-the-scenes look at aviation through field trips to airports and other flying-related venues.
- Gain a new perspective and learn about career choices.
- Spend time with industry experts.
- Use a flight simulator and get time in the air, where you'll actually fly the airplane!

You will come away with the experience of a lifetime.
