CIVILIAN FLIGHT INSTRUCTOR U.S. AIR FORCE  
TEST PILOT ON B-24 BOMBER-WILLOW RUN, MI.**

**SPONSORED BY WM. B. SCOFIELD AND RICK SCOFIELD**

## Description

This is a \$3,000 scholarship generously sponsored by WM. B. Scofield and Rick Scofield in memory of two accomplished Michigan aviators Lieut. Commander Harold W. Scofield Sr. and Harold W. Scofield Jr. The application requirements are designed to ensure that the scholarship will be used for the applicant to begin their career in aviation, and take advantage of the ability to obtain a Private Pilot license while in high school before going to a collegiate aviation program. The spirit of these requirements is to ensure that the license can be completed successfully by the applicant by the end of summer break following the applicant's senior year in high school. Since the scholarship is for \$3000 we want to make sure the applicant has the financial means to finish the Private Pilot training. In addition to the following specific requirements, we will be awarding the scholarship to the applicant who needs this scholarship in order to obtain their Private Pilot license and most demonstrates passion for aviation and commitment to becoming a career pilot.

## Requirements

- Be a Junior or Senior in Livingston County
- Be able to provide transportation to/from Crosswinds Aviation
- Pass a first class medical exam
- Have \$5,000 to put towards the initial Private Pilot training at Crosswinds Aviation in order to qualify and start training.
- Be able to pay for any additional training over \$8000. Typically a license at Crosswinds Aviation averages \$8,000 to \$10,000.
- Start training by March 1<sup>st</sup> of Senior year in high school

## Process and Deadlines

Feb. 21 – Write a one page essay about why you want to become a pilot, and why you need help paying for Private Pilot training in high school.

Feb. 21 – Feb. 27 – Interviews will be set up with Crosswinds Aviation and the Scofields to meet and discuss scholarship with applicants.

Feb. 27 – Scholarship will be awarded and communicated

March 2 – Pass 1<sup>st</sup> class medical. If the medical is not passed, the scholarship will be awarded to another candidate.

March 2 – Register for flight training at Crosswinds Aviation. Put \$5,000 on account, Crosswinds will give the 40 hour block time rates for DA20 aircraft and instructor.

March 2 – August 30 – Private Pilot training. The student will follow the Private Pilot Syllabus and related curriculum at Crosswinds Aviation. Crosswinds Aviation instructors will assess whether the student is coming prepared and studying for each lesson. There will also be a Stage I check practice oral exam to make sure the applicant has been studying the material required up to that point. After the Stage I check and practice oral, an assessment will be made about the applicant's commitment to becoming a pilot. If a positive assessment is given, the \$3,000 scholarship will be deposited to the applicants account. If a negative assessment is given, a recommendation will be given for the applicant to stop flight training and consider a different career path and the scholarship funds will not be awarded. The student can continue flight training at their own expense if they so choose.
